FOR PARTNERS

“

The future belongs to
the most intelligent
technologies...
but to the techniques
that truly serve
humanity.

”

★ FIRST EDITION ★

CALL MIND TECHNOLOGY
Our Legacy. Our Innovation. Our Future.

THE VISION

33 YEARS OF VISION • INNOVATION • TRUST

A vision born in 1993...
Now shaping the future through
intelligent systems for a better world.

“ Not every great journey starts big...
but every vision that begins with
faith finds its path.

”

In 1993, I founded CALL MIND TECHNOLOGY with a clear vision: to transform innovation from an idea into a real-world impact through intelligent systems, insightful vision, and the power to turn ideas into reality.

Over the years, with dedication and trust, we expanded our scope of work and strengthened our expertise — until CMT GROUP became a bridge between global trade, industrial solutions, innovation, and products that turn ideas into valuable systems and opportunities for sustainable investment.

We did not take the easy road; we chose a mission. Through every stage, we learned, developed, and believed that great ideas deserve to become real projects that leave a true impact.

Today, Luvva Mom represents this vision. It is not just a new product, but the fruit of years of experience, dedication, and a firm belief that the future belongs to ideas that bring human value and sincerely transform into reality.

1993

Founded

CALL MIND TECHNOLOGY
The journey of vision and
innovation began.

CMT GROUP

Global trade, industrial solutions,
creative expansion, and
transforming ideas into systems
and opportunities.

LUVVA ECOSYSTEM

Smart digital companion
creating real value
and a better future.

Mishrif Abu Mishrif
FOUNDER & CEO
CMT GROUP

- Transforming visions into products.
- Transforming products into systems.
- Transforming systems into sustainable value and opportunities.

Luvva Mom

EXECUTIVE INVESTOR BRIEF

Prepared by **CMT GROUP**

CMT GROUP

LUVVA MOM

Technology with Purpose... Innovation with Soul.

BEFORE WE TALK ABOUT TECHNOLOGY... LET'S TALK ABOUT PEOPLE.

Since the beginning of humanity, a mother has remained the greatest symbol of love, security, care, and unconditional giving. She does more than bring life into the world—she provides comfort, guidance, and unwavering support throughout every stage of life.

AS WE ENTER THE AGE OF ARTIFICIAL INTELLIGENCE, ONE IMPORTANT QUESTION EMERGES:

Can technology learn from these timeless human values?

Can it become **more compassionate**?

More **trustworthy**...

And more **meaningful** in people's daily lives?

FROM THIS QUESTION...

LUVVA MOM WAS BORN.

Luvva Mom is an AI-powered intelligent robotic platform designed to introduce a new generation of human-centered technology. Inspired by the spirit of motherhood, it seeks to create a more natural, trusted, and emotionally meaningful relationship between people and intelligent systems.

IMPORTANT NOTICE

This document provides a high-level overview of the project's vision and investment opportunity.

It does not disclose proprietary technologies, engineering architecture, implementation methods, or intellectual property, all of which are presented only during **qualified investor meetings** within a professional framework that protects the interests and rights of all parties.

WHY LUVVA MOM

The world is witnessing an unprecedented transformation in **artificial intelligence**, **while** most current solutions focus primarily on increasing computational power.

Luvva Mom is different.
It starts from a different point...
People come first.

It does not just strive to build smarter robots, but to deliver an AI experience that feels more human, understands human needs better, and adds real value to everyday life.

That is why **Luvva Mom** was designed from the ground up as a highly scalable platform—ready to evolve, stand on its own, offer a wide range of smart services, open new horizons for growth, and build long-term value.

Luvva Mom is not just another robot...
It is a step toward redefining the relationship between humans and artificial intelligence.

LUVVA MOM

WHY INVEST IN LUVVA MOM?

Luvva Mom is more than a smart robot—it introduces a new category that combines emotional connection, practical value, and **advanced AI** in one unique platform.

SCALABLE BUSINESS

Built to grow with new services, updates, and accessories.

RECURRING REVENUE

Multiple revenue streams through products, subscriptions and services.

GLOBAL MARKET

Designed for families and all age groups, with worldwide market potential.

STRONG IP POTENTIAL

Unique concept with high protection possibilities and competitive advantage.

STRATEGIC PARTNERSHIPS

Open to collaboration with global technology leaders and investors.

PREMIUM BRAND

Creating a trusted emotional brand with long-term value.

SMART SERVICES

CONTINUOUS UPDATES

SPECIALIZED ACCESSORIES

NEW EXPERIENCES

THE KEY QUESTION...

What makes us confident in our ability to execute this vision?

LUVVA MOM

33 YEARS
OF EXPERIENCE

1993

CALL MIND TECHNOLOGY

It all started with a vision in the field of technology and smart solutions.

CMT GROUP

Growth and expansion in technologies, solutions, and markets.

GLOBAL MARKET EXPERIENCE

In-depth understanding of markets and selection of scalable projects with high growth potential.

LUVVA MOM

A new phase driven by human innovation and intelligent thinking.

WHY US?

Every great company begins with an idea... but ideas alone do not build lasting success. What truly makes the difference is **experience, vision, and the ability to execute.**

The team behind **Luvva Mom** brings together more than three decades of experience in technology, development, industrial solutions, and international trade.

This journey began with CALL MIND TECHNOLOGY in **1993**, and evolved into **CMT GROUP**, which brought together technical expertise, market understanding, and a careful selection of scalable projects for growth.

Over the years, we have learned that success does not come from a single good idea, but from choosing the right idea, at the right time, building a practical business model and creating value capable of growth and sustainability.

Therefore, we do not look at **Luvva Mom** as just another product... but as a long-term strategic project based on deep experience, a clear vision and a **well-defined execution strategy.**

THE NEXT STEP...

How has Luvva Mom transformed this idea into a viable global project?

FROM ONE PRODUCT

TO A GLOBAL ECOSYSTEM → ECOSYSTEM ←

Every global transformation begins with a single **defining heartbeat**.

Luvva Mom is that **heartbeat**.

WHAT THIS CREATES

ONE PLATFORM. MULTIPLE BUSINESSES.

A single ecosystem opens doors to many scalable revenue opportunities.

EVERY USER CREATES LONG-TERM VALUE.

The more people we serve, the stronger the network and the value.

EXPANSION STRENGTHENS THE ENTIRE ECOSYSTEM.

New markets, partners, and products fuel compounding growth.

INNOVATION DRIVES RECURRING REVENUE.

Smart solutions and connected services create sustainable income streams.

GROWTH IS DESIGNED – NOT ADDED LATER.

Scalability, flexibility, and intelligence are built into our DNA from day one.

PEOPLE

Empowering lives.
Building relationships.

BUSINESS

Creating value.
Generating opportunities.

AI

Intelligent systems.
Smarter living.

COMMUNITY

Connecting hearts.
Strengthening communities.

FUTURE

Sustainable impact.
A better world for generations.

INVESTOR EDITION

“

Today you see an idea.

Tomorrow the world
may see **an ecosystem**.

ONE QUESTION
STILL HAS NO ANSWER...

How does this vision
become a global
business? →

She embraces the future with her hands

She is not alone.

She is the beginning of a new family
the world will choose
to trust,
to love,
and to grow alongside.

LUVVA

MOM

— You will —
never be alone.

A NEW FAMILY IS FORMING

More Luvvas are coming.
From every home,
every heart,
every part of the world.

FUTURE COMPANIONS

Delivering care,
Providing smart support.
Helping people
love,
grow,
and dream safely.

ONE PURPOSE ONE HEART

Different faces,
different stories,
same purpose
to serve humanity.

A GLOBAL COMMUNITY

United by connection.
Powered by trust.
Driven by innovation.
Designed for life.

BUILDING THE FUTURE TOGETHER

More Luvvas are coming.
Because the future is stronger
when we build it together.

FOR TODAY. FOR TOMORROW. FOREVER.

For today.
For tomorrow.
Forever.

NEW MEMBERS.
NEW BONDS.
ONE FAMILY.
COUNTLESS POSSIBILITIES.

TOGETHER,
WE SHAPE THE FUTURE
OF HUMANITY.

How One Heart Creates Endless Value (I)

Luvva
— MOM —
INTELLIGENTLY CARING

Every lasting investment begins with a sustainable source of value.

For Luvva Mom, that source is **one intelligent heart.**

It is more than an emotional symbol. It is the economic engine behind an expanding ecosystem—designed to generate recurring value, scalable opportunities, and sustainable long-term growth.

1

One Product... Multiple Revenue Streams

Every Luvva Mom device becomes the gateway to a growing ecosystem of subscriptions, digital services, premium features, accessories, and future innovations.

The first sale is only the beginning of a lifelong value journey.

2

Every New User Strengthens the Ecosystem

Each new customer contributes more than a single purchase. A larger user base increases engagement, expands service opportunities, strengthens the ecosystem, and creates additional business potential over time.

3

Designed to Expand—Not to Finish

Luvva Mom was built as a platform that continuously evolves. New AI capabilities, connected services, partnerships, and future products can be added while preserving the same core vision.

And this is only the beginning...

How One Heart Creates Endless Value (II)

Luvva
— MOM —
INTELLIGENTLY CARING

Value does not come from a single sale.
It comes from a system that **keeps giving**.

Luvva Mom is designed as a long-term value engine powered by continuous innovation, data intelligence, and emotional connection—creating measurable impact for users, partners, and investors.

4

Scalable. Global. Timeless.

- Addresses a universal need with a product that adapts to all cultures and ages.
- Designed for global expansion through local partnerships and smart distribution.

5

Data Intelligence That Creates Smarter Value

- Behavior insights, usage patterns, and emotional interaction data.
- Enables continuous improvement, personalized services, and new digital opportunities.
- The more the ecosystem grows, the smarter and more valuable it becomes.

6

Strong Margins. Recurring Revenues. Long-Term Returns.

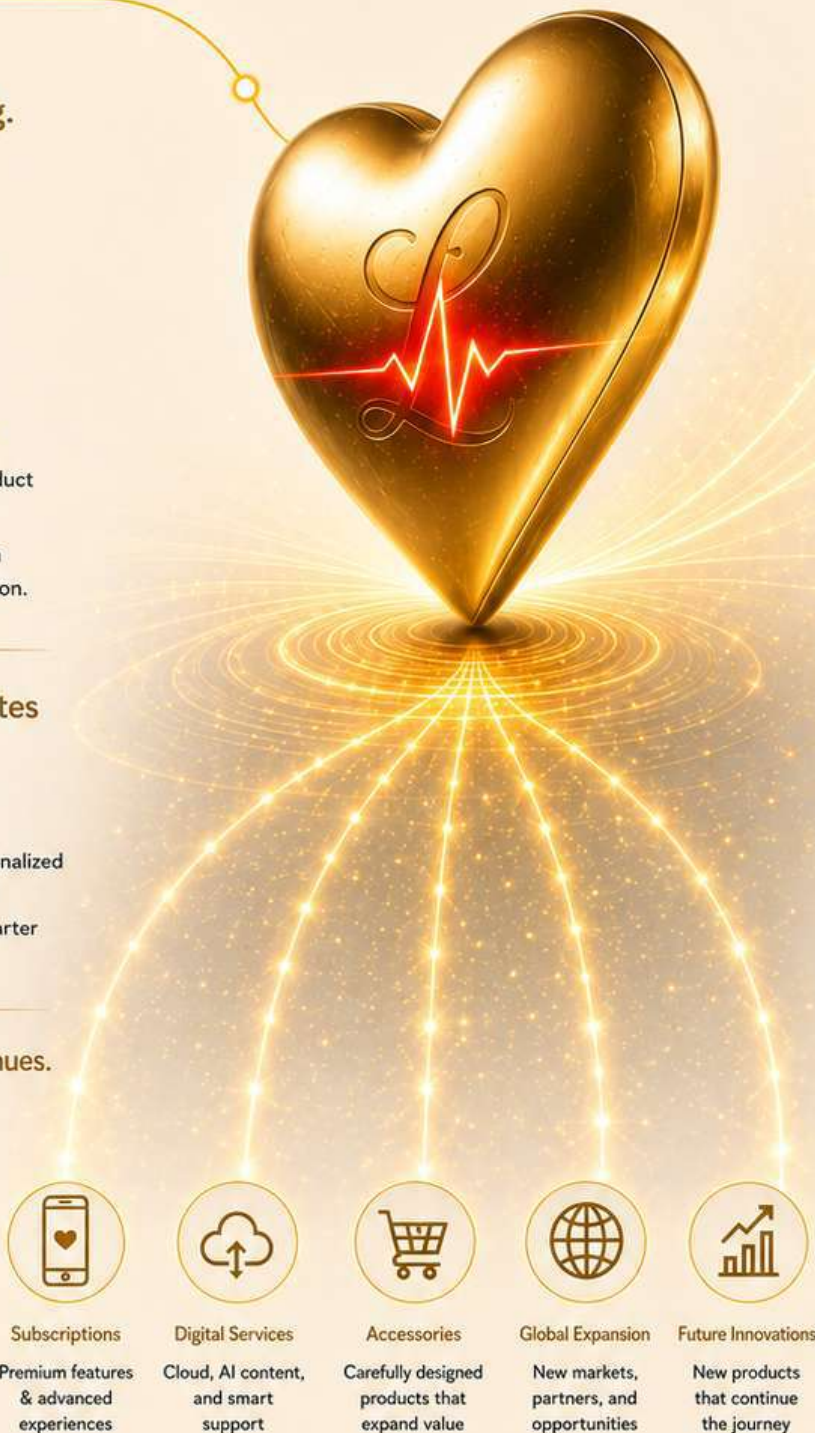

- Hardware is just the entry point.
- Subscriptions and digital services drive high-margin, recurring income.
- Built for investors who think long-term and value sustainable growth.

7

A Movement That Builds Loyalty Beyond the Product

- Emotional connection creates trust.
- Trust builds loyalty.
- Loyalty builds a community.
- A trusted community builds a lasting legacy.
